Risk Warning: The information provided here has been issued by Hansa Investment Company Limited. Share and performance information has been compiled by Hansa Capital Partners LLP which is authorised and regulated by the Financial Conduct Authority. Past performance is not necessarily a guide to future performance as market and exchange rate movements may cause the value of shares and income from them to fall as well as rise, and an investor may not get back the amount invested. The spread on products analogous to Hansa Investment Company Limited typically averages 1-2% each way on the mid-market price (the price half way between the bid and offer prices). However, investors wishing to invest in Hansa Investment Company Limited shares should note that the market for these shares is at times quite illiquid which leads to a large spread between the buying and selling prices, the bid to offer spread. For example, for the Ordinary Shares, as at 30 April 2020 the bid offer spread was 4.9% (Bloomberg).
